

# Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

Economic Development  
and Analysis  
**Form 50-296-A**

**INSTRUCTIONS:** This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
  - the date on which the school district received the application;
  - the date the school district determined that the application was complete;
  - the date the school board decided to consider the application; and
  - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at [www.texasahead.org/tax\\_programs/chapter313/](http://www.texasahead.org/tax_programs/chapter313/). IKO Southwest Inc. is currently in the process of registering with the Secretary of the State of Texas. They will not file their first Texas franchise tax return until May of 2015 (for calendar year 2014). **TAB 4**

**Detailed Description of the Project**

*Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.*

IKO Southwest Inc (IKO) is requesting an appraised value limitation from Hillsboro Independent School District (ISD) for their proposed state-of-the-art world class factory to manufacture asphalt roofing shingles (the "Project"), in Hillsboro, TX. The proposed Project (this application) would be constructed within an Enterprise Zone established by the City of Hillsboro. Maps showing the location of the project, the tract of land and proposed improvements are included as TAB 11.

IKO and its parent company Goldis Enterprises Inc. are privately-owned companies that are part of the IKO group of companies. The IKO group of companies was founded in 1951, and has been owned and managed by the same family since that time. The IKO group of companies currently owns and operates three shingle manufacturing factories in the USA: in Wilmington, Delaware, in Kankakee, Illinois, and in Sumas, Washington. The company is just finishing the construction of a new factory in Sylacauga, Alabama, which will start operations in mid-2014. The Hillsboro Texas factory would be the company's fifth shingle manufacturing factory in the USA. In addition, IKO currently owns and operates four shingle manufacturing factories in Canada, and two in Europe.

IKO would invest approximately \$80 million in capital to construct the factory. In addition, IKO would invest between \$15 million and \$25 million in working capital at the factory (as detailed in Column C on Schedules A1 & A2), depending upon the time of year. This working capital would be primarily in the form of raw material inventories and finished goods inventories.

IKO is committed to employing at least 40 employees at the factory. These would all be new jobs for the City of Hillsboro and for the State of Texas. The factory would also create many indirect jobs in Texas. As well, IKO would create many direct and indirect jobs during the 24-month construction period for the factory. The factory is expected to operate for at least 30 years.

The proposed site of the factory is a 60-acre greenfield site near the eastern end of Old Dallas Highway North, County Road 4343, in the industrial park in the northern part of Hillsboro.

The factory would include the following facilities:

- The main manufacturing building, would be approximately 110,000 square feet in size. This building would house the main production and packaging line. It would also contain:
  - o Warehouse space for raw materials
  - o 18 large silos for raw materials
  - o Tanks, heaters, blenders, and other equipment to prepare the raw materials for use on the main production line

**ATTACHMENT TO APPLICATION FOR APPRAISED VALUE LIMITATION ON QUALIFIED PROPERTY  
BY IKO SOUTHWEST INC TO HILLSBORO ISD**

- Large amounts of piping and many pumps, conveyor belts and bucket elevators to convey raw materials from the storage and preparation areas to the main production line
  - Maintenance shops and store-rooms for spare parts
  - Control room and laboratory
- Facilities to receive, store, and prepare asphalt for use in the factory
- Facilities to receive, store, and prepare limestone for use in the factory
- A warehouse for finished goods, which would be approximately 100,000 square feet in size
- An office building about 4,000 square feet in size, which would include an employee training room, locker room and lunchroom
- Five railroad spurs to bring in raw materials and ship out finished goods
- Roadways, truck loading and unloading areas, truck weigh-scales, and parking lots

IKO would start construction of the factory in the fourth quarter of 2014. Construction would take 2 years, and the factory would start operations in the fourth quarter of 2016.

**TAB 5**

*Documentation to assist in determining if limitation is a determining factor.*

IKO Southwest Inc (IKO) and its parent company Goldis Enterprises Inc. are privately-owned companies that are part of the IKO group of companies. Founded in 1951, IKO owns and operates three other asphalt shingle manufacturing plants in the US, four in Canada, and two in Europe. IKO is actively seeking to expand their market share in the US by developing and constructing this project in Hillsboro, TX. IKO is also considering, and has received offers from the State of Oklahoma to locate this proposed facility in that state.

"The State of Oklahoma, Choctaw County, and the City of Hugo have offered extensive incentives to IKO to build its new factory in the City of Hugo. These incentives include:

- property tax abatements
- a cash rebate of a portion of the company's payroll for a period of ten years
- exemption of sales/use taxes for machinery, equipment, raw materials, and energy used in manufacturing
- reimbursement of sales/use tax paid on construction materials
- training and recruitment incentives
- extensive investment in infrastructure for the factory, including public roads, private roads on the factory site, rail spur with switches and crossing, water line, sewer line, site preparation, and engineering

The total value of all the state, county, and city incentives is approximately \$18 million."

IKO Southwest Inc has the ability to invest, locate and develop new (asphalt roofing shingle) manufacturing factories in numerous locations throughout the United States, Canada, and Europe.

For All Columns: List amount invested each year, not cumulative totals. Only include investments in the remaining rows of Schedule A2 that were not captured on Schedule A1.
